Lasso Tool	L	Undo	Command (or Control) + Z
Magic Wand Tool	W	Copy	Command (or Control) + C
Pen Tool	P	Paste	Command (or Control) + V
Move Tool	V	New File	Command (or Control) + N
Crop Tool	C	Fit Image in Window	Command (or Control) + 0 (zero)
Quick Mask Mode	Q		

***Know:***

Pressing the spacebar while using any tool allows you to scroll the image with the Hand Tool.

Contextual menus are accessed by right-clicking (Windows or Mac) or control-clicking (Macintosh).

The palette which gives you information on color, position coordinates and measurements is the Info palette.

Pressing the Command (Control) key while using any tool allows you to access the Move Tool.

The Feather command allows you to create soft-edged selections.

The Options bar allows you to access the available settings for the selected tool.

Use Command + to zoom in; Command - to zoom out.
