

2011 Vision Science Symposium Guidelines

Presenters

Your mission is to summarize the main points of the journal article.

- Briefly mention the journal and types of articles it publishes.
- What organization sponsors this journal?
- Introduce the article title and authors. Where are they from?
- What was the purpose of the study and why is it important?
- Introduce background information if necessary
- Summarize the methods
- Summarize the results.
- Try to include figures or graphs.
- Summarize their conclusion and why it is important.
- Bulleted points are better than long sentences.
- Plan for a 7-minute presentation, with about 1 slide per minute.
- Be prepared for questions after the presentation.
- One or members can give the actual presentation.
- After the Symposium, email Dr. Salmon your PowerPoint file.
